Life Automotive Products Inc. is not liable for damage or loss arising directly or indirectly from the use of any information in this chart.

Some OEMs recommend Group III or Full Synthetic ATF for extended fluid service life and high and low temperature fluid performance. The use of Dexron III in these applications may affect the fluid viscosity.

HFM ATF Supplement #6001

Multi-Vehicle ATF Supplement #6900

Full Synthetic Multi-Vehicle ATF #10000

Mercon V ATF Supplement #6500

Synthetic ATF Protectant #4001

D-VI Supplement #6700

Multi-Vehicle CVT Fluid #3100

No supplements or additives required when using ONE FORMULA Multi-Vehicle ATF #10000.

* Some performance levels may be limited by specific viscosity requirements. For specific fluid type designations by application, consult the vehicle's owners manual.

ONE Advanced Formula Full Synthetic Multi-Vehicle ATF is NOT intended or recommended for use in Allison TES, Ford Type F, Continuously Variable Transmissions (CVT), Dual Clutch Transmissions (DCT), MAN or Voith applications.
